SUBJ: LETTER OF APPRECIATION

The Mar Vista apprentices and I would like to thank you for the outstanding experience we have had aboard Yukon the past three weeks. The patience, professionalism, and training have been some of the best that the Maritime program has ever encountered.

This program has grown over the past six years to the point that almost all of the apprentices that participate in the MSC summer internship are hired upon completion. This is an indication of the MSC tanker crews buying into the program and being willing to participate to train these young people.

I would like to mention YUKON crewmembers that provided valuable expertise to the training process:

1st Engineer Brasher
2/O Mortensen
The Bosn's: Casanova, Chalmers, Kincaide

Again, let us thank you for your help in making the program an ongoing success.

Respectfully,

RICK NICHOLS
